**Property owner must provide the Township with 48 hours advance notice of the installation of any public or private sewer line installation.**

**The Township's rules and regulations and rate ordinance require a service connection fee of \$4,100.00. Payment in that amount must accompany this application.**

**The Township may make the physical tap to the existing sewer system and will provide the property owner with the cost so that payment can be made to the Township, prior to the property owner's need for service. The cost for the physical tap will vary for**

each property. The Township reserves the right to require the property owner to hire a contractor to make the physical tap to the Township's sewer system. However, any contractor making a physical tap to the Township's sewer system must be approved by the Township and meet the requirements of the Township's rules and regulations and Sewer Ordinance.

The applicant agrees to comply with all terms and conditions outlined in the Townships' Sewer Use Ordinance, which sets forth the rules and regulations governing the furnishing of sewage service.

Liberty Township requires a drawing of your proposed connection to the Township's sewer system, including the proposed materials. Only Environment One grinder pumps may be used for connection to the Township's pressure sewer system.

The applicant agrees to be responsible for the sewer service charges at this location until a proper request for termination of service is received and accepted by the Township or a new application for sewer service is filed for this location, transferring the responsibility for the charges to another party. The applicant also agrees to promptly notify the Township of any changes in his billing address.
